

## **Workshop for aircraft operators on monitoring plans for annual emissions and tonne-kilometres within the framework of the EU emissions trading scheme (EU ETS)**

**Date:** Friday 10 July 2009, 1h30 pm

**Place:** Ferraris building, room 1G20, Koning Albert II-laan 20, bus 8, B-1000 Brussels, Belgium

**Closest railway station:** Brussels north station

**Language:** English

### Organisation

The workshop is organised by the Air, Nuisance, Risk Management, Environment and Health Division of the Flemish Environment, Nature and Energy Department (ENE), who will be the Flemish Competent Authority (CA) within the framework of the EU emissions trading scheme for aircraft operators.

### Aim of the workshop

The aim of the workshop is to give practical guidance to aircraft operators, who will be administrated by the Flemish CA, how to set up a monitoring methodology and how to compile and submit monitoring plans for annual emissions and tonne-kilometres. Aircraft operators, under the scope of the EU ETS, will have to submit their first monitoring plan for CO<sub>2</sub> emissions to their competent authority before 1 September 2009. Aircraft operators, who wish to receive free allowances will have to submit a monitoring plan for tonne-kilometres to their competent authority as well before 1 September 2009. Issues regarding emission and tonne-kilometre reports, opening accounts in the national registry, surrendering allowances, new entrants to the scheme, etc. will be addressed and clarified at a later stage.

### Agenda

Moderator: Tomas Velghe - Climate policy advisor ENE

- |          |   |
|----------|---|
| 1h00 pm: | Registration  |
| 1h30 pm  | Welcome and introduction (T. Velghe - Climate policy advisor ENE)                                       |
| 1h40 pm  | EU ETS for aircraft operators: EU and Flemish legal framework (L. Clerick – Climate policy advisor ENE) |
| 1h55 pm  | EU ETS for aircraft operators: scope and compliance chain (L. Clerick – Climate policy advisor ENE)     |
| 2h10 pm  | Questions   |

2h25 pm	Procedures for submission, verification, actualisation and approval of monitoringplans for annual emissions in the Flemish region, Belgium (L. Clerick – Climate policy advisor ENE)
2h40 pm	Rules and guidelines for monitoring CO <sub>2</sub> -emissions (W. Verhoeven – verifier Flemish Verification Office)
2h55 pm	Practical guidance: how to compile a monitoringplan and how to set up a monitoringmethodology for annual emissions (W. Verhoeven – verifier Flemish Verification Office)
3h20 pm	Questions
3h30 pm	Coffee Break
3h45 pm	Procedures for submission, verification, actualisation and approval of monitoringplans for tonne-kilometres in the Flemish region, Belgium (L. Clerick – Climate policy advisor ENE)
4h00 pm	Rules and guidelines for monitoring tonne-kilometre data ((W. Verhoeven – verifier Flemish Verification Office)
4h15 pm	Practical guidance: how to compile a monitoringplan and how to set up a monitoringmethodology for tonne-kilometres (W. Verhoeven – verifier Flemish Verificationbureau)
4h30 pm	Questions
4h45 pm	Coffee break
5h00	Procedures for registration and notification of changes to the monitoringmethodology and abnormal circumstances for annual emissions and tonne-kilometres (L. Clerick – Climate policy advisor ENE)
	Practical guidance logbooks and notification forms for changes to the monitoringmethodology and abnormal circumstances for annual emissions and tonne-kilometres (W. Verhoeven – verifier Flemish Verificationbureau)
5h20	Questions
5h30	Reception

## Questions

For more information regarding the EU emissions trading scheme for aircraft operators please visit our website: <http://www.lne.be/themas/klimaatverandering/co2-emissiehandel/luchtvaart> or contact Liesbeth Clerick, climate policy advisor at the Air, Nuisance, Risk Management, Environment and Health Division of the Flemish Environment by e-mail: [liesbeth.clerick@lne.vlaanderen.be](mailto:liesbeth.clerick@lne.vlaanderen.be).

## Presentations and templates

will be available as from 15 July 2009 on <http://www.lne.be/themas/klimaatverandering/co2-emissiehandel/luchtvaart>
